

My Christmas

Christmas is a great time for me! I always spend time with my family and friends and, very important, we don't go to school!

On the 22nd December all of us watch the Lottery on TV, you can win millions! Next, on the 24th December all the family get together, we have a Christmas dinner and we celebrate. I usually come back on the 25th and we have lunch together again. We finish the year with a large dinner on the 31st December and we have 12 grapes when the clock strikes twelve. We think it is good luck!

At Christmas we don't usually get up early and we have a lot of free time. We often visit different nativity scenes and

we eat out many times. I sometimes go to the cinema to see movies with my friends.

On the 6th January we usually receive presents. For little children toys are very common, and electronic devices are very popular for the rest. We also get clothes, perfumes or money.

And you?
